Sub: **One-Week Specialised Training Course on “PUNCTURED INSULATOR DETECTION” from 11.12.2017 to 15.12.2017 - reg**

Sir /Madam,

We are glad to inform that HLTC is organizing **One-Week Specialised Training Course on “PUNCTURED INSULATOR DETECTION”(from 11.12.2017 to 15.12.2017)**. The course is meant for spreading awareness about the Live Line insulator testing and intended to highlight the scope of PID on EHV Lines. A brief outline of the PID course and how to reach the Institute are enclosed. In this programme normally we accommodate around 25 trainees, and nominations are accepted on first-come-first served basis. It is requested that the nominations be sent sufficiently in advance so as to reach us at the earliest; ie, by 1st **Dec, 2017**. It is advised that the nominations may please be got confirmed from HLTC before deputing the participants. **The residential Course Fee is Rs.28,140/- (Rupees Twenty Eight Thousand One Hundred and Forty only) for participant. It includes training fee, Boarding and Lodging charges & Service tax(GST).**

Yours faithfully,

One-Week Specialised Training Course on “PUNCTURED INSULATOR DETECTION”

(11.12.2017 to 15.12.2017).

ABOUT HLTC

The fast developing High and extra High Voltage Power System Network calls for least interruption in Power Supply and increased system security. Efficient operation and maintenance of existing and expanding Power System networks play a vital role in shaping the economy of the country which necessitated adoption of specialized techniques, for the maintenance of power transmission and distribution lines.

The Hot Line Training Centre was established at Bangalore to impart specialized training in Live Line Maintenance Techniques (LLMT) using Hot Stick Method (HSM) up to 220 kv to the personnel of the State Electricity Boards / Supply Undertakings all over India and Abroad.

The fast growing HT & EHT Transmission lines and the rapid addition to 400 kv lines in the country has made it imperative to upgrade the Live Line Maintenance Technology. LLMT Course using the Bare Hand Techniques up to 400 kv is designed and planned to meet the needs of the transmission networks owned and operated by various Power Supply and Transmission Undertakings in the country.

BRIEF OUTLINE OF THE COURSE

The following topics shall be covered in the course.

1. To provide technical knowledge about insulator types and its failures,
2. To highlight the importance of on line testing of insulators on EHV Transmission lines and switchyards.
3. Familiarization and hands on training on the use of Probe/PID instrument for punctured insulator detection.
4. To help participants to download the test readings, interpret test results.
5. Case studies, if any.

ELIGIBILITY

Nominations are in the grade of Foremen, Linemen, Asst. Linemen, Supervisors, Junior Engineers, Asst. Engineers etc .actively involved Line Maintenance activities having physical fitness. Should be willing to execute indemnity bond and climb tower.

PLACE OF TRAINING

The training programme shall be conducted at **HLTC complex, 26thkm Kanakapura Road, Somanahalli Gate, Bangalore – 560082** which is about 35 km from City Railway Station and the trainees shall make their own arrangements to reach the campus.

ALLOWANCES & ADVANCES
